2. <https://www.bbc.co.uk/bitesize/topics/zv9qhyc/articles/z74rqp3>

<u>Emotion content</u>	<u>Cognitive content</u>	<u>Action</u>
How do you feel when you eat your favorite food?	Students learn about digestion and energy needs.	Build a digestive system model from recycled materials: (See link 1)
What are the things that you can not digest? (physically and conceptually)	They identify main parts of the digestive system.	Interactive digestion game. (See link 2)
Whose food do you like the best in your family? Why		Create a Popplet mind map illustrating the system. Large-format poster: HOW DOES THE DIGESTIVE SYSTEM WORK?

Instructions:

Students rotate between activity stations. Teachers facilitate exploration and creativity.

Teachers' notes:

Encourage curiosity, teamwork, and environmental awareness.
